# Smart WiFi Solar Camera

SHC WS1

ANTIK SmartHome exterior Wi-Fi camera with solar panel

## Key Properties

- Important camera footage always at hand
- Practical Multi-Purpose: Security, Surveillance and Communication
- Integrated microphone for two-way communication
- Integrated Rechargeable Battery and Solar Panel

**3.0<sub>MP</sub>**  
**MEGAPIXEL**

PTZ Camera

No wiring needed

Simple installation

No electricity required

Protects privacy

## Description

ANTIK SmartHome exterior camera with a resolution of up to 2,304 × 1,290 px will always tell you what is happening around your property when you are not at home. The 3 MPx resolution and 120 degree viewing angle of the ATK-SHCWS1 exterior camera will capture every detail in the form of video or images. It informs you about any unwanted visitors 24 hours a day, so of course the main functions include motion detection. The images of the monitored location are stored on a microSD card with a capacity of up to 128 GB. If that is not enough, you can use external cloud storage. You can monitor everything using the free ANTIK SmartHome® application. It can also be connected to a 2.4 GHz Wi-Fi network. Night vision max. 12m.

## Properties and Functions

**Two-way audio:** The built-in speaker and noise-canceling microphone allow you to have a live conversation with the courier or use it to warn suspicious persons. The sound is clear and loud enough.

**PIR Motion Detection and Siren:** The wireless outdoor camera can wake up quickly when it detects motion, record video and send instant notification to the app. The intelligent motion sensor can distinguish people from pets, reducing false alarms.

**Day and Night Recording:** The indoor Wi-Fi monitor starts color video recording during the day and turns on full color night vision at night to record indoor conditions.

**Solar Panel and Rechargeable Battery:** The efficiency of solar-photoelectric conversion can be increased by using a 10W solar panel. The outdoor solar security camera has a built-in rechargeable battery, which can be charged using the included USB charging cable.

**Device User Support:** The smart indoor security camera supports online live video viewing by multiple users at the same time, and image sharing via the app on your phone will ensure you don't miss any important moment.

## Technical Specifications

<b>Sensor</b>	3.0MP CMOS f/2.8
<b>Audio</b>	AAC and G.726, Mic -38dB
<b>Coding Format</b>	H.264 / H.265
<b>Focal Length</b>	3.6 mm
<b>Resolution</b>	2304 x 1290
<b>Night Vision</b>	Support IR LED, 12m
<b>Mobile Detection</b>	PIR + mobile detection + humanoid detection, multiple intelligent detection, effective distance 12 meters
<b>Alarm Linkage</b>	Snapshot, Video Recording
<b>Power</b>	4x 18650 Lithium Battery, Solar Rechargeable Battery
<b>Storage</b>	TF Card (128GB max), Local Storage, Cloud
<b>Working Temperature</b>	-10°C ~ 60°C
<b>Working Humidity</b>	≤ 80% non-condensing
<b>Ingress Protection</b>	IP 65
