Description

ANTIK SmartHome dome exterior camera with a resolution of up to 3200 x 1800 px will always tell you what is happening around your property when you are not at home. The 6 MPx resolution of the ATK-SHCWD1 exterior dome camera will capture every detail in the form of video or images. It informs you about any unwanted visitors 24 hours a day, so of course the main functions include motion detection. The images of the monitored location are stored on a microSD card with a capacity of up to 128 GB. If that is not enough, you can use external cloud storage. You can monitor everything using the free ANTIK SmartHome® application. You can connect the camera to the ANTIK smart siren ATK-SS01 using a scenario, when the alarm is triggered in the event of an intruder. It can also be connected to a 2.4 GHz Wi-Fi network. Night vision max. 25m.

Practical Multi-Purpose: Security, Surveillance and Communication

ANTIK smart camera has several uses at once: it serves not only as a reliable protector against intruders and thieves, but also as a surveillance for your dear pets. Moreover, it becomes a great means of communication between you and your children, especially when they move around the garden of the house or play somewhere else. Our smart camera is a real multi-purpose tool that allows you to have control over your home and communicate with your loved ones in any situation.

Integrated microphone for two-way communication

The ANTIK smart camera has an integrated microphone for two-way voice communication, thanks to which you can warn an intruder or communicate peacefully with your children or pets via the ANTIK SmartHome® mobile application.

Technical Specifications

Camera	Image Sensor	1/3" CMOS Color sensor 6MP
	Min. Illumination	Color: 0.05lux / F1.2; B/W: 0.005lux / F1.2
	Lens	3.6mm
	WDR	Digital WDR: >80dB
	SNR	>50db(AGC OFF)
	IR LED's	12pcs Infrared LED
	IR Distance	15 ~ 25m
	Day & Night	IR -CUT filter auto switch
Compression	Video Compression	H.265/264
	Audio Compression	G.711
	Bit Rate	128Kbps ~ 8192Kbps
	Stream	Yes
Image	Resolution	6MP
	Main Stream	3200x1800, 1 ~ 20 FPS
		2880x1664, 2560x1440, 2304x1296, 1920x1080, 1280x720, 1 ~ 30 FPS
	Sub Stream	704x576, 640x480, 640x360, 352x288, 1 ~ 30 FPS
	White Balance	Auto
	Image Settings	Picture Flip, Motion Detection
Audio	Audio Standard	G.711
	Built-In Mic	Yes
	Built-In Speaker	Yes
Network	Alarm Trigger	Motion Detection Notification
	Wireless	WiFi 802.11 b/g/n
	Supported Mobile System	iOS7 up, Android 4.0 up
	Security	User Authentication, Software Encryption
Interface	On Board Storage	Built-In TF Slot, Supports max. 128GB
General	Operating Temperature	-30°C ~ 60°C
	Material	Metal
	Ingress Protection	Outdoor / Indoor
	Power Supply	DC 12V 1A (Not included) or IEEE802.3af 48V
	LAN Port	Supported, Onvif Protocol
